PROFESSIONAL SUMMARY

ISTQB-certified Software Quality Assurance Engineer with 4+ years of hands-on experience in manual and automated testing across web and mobile applications. Proven ability to design comprehensive testing strategies, develop automation frameworks using Playwright (JavaScript/TypeScript), and collaborate cross-functionally to deliver high-quality SaaS products. Adept at API testing, test documentation, and defect management with a track record of reducing regression test execution time by 60% and improving sprint delivery efficiency.

WORK EXPERIENCE

Software Quality Assurance Engineer | Ultra Codes Pvt. Limited

2022 – Present

- Led end-to-end manual and API testing (Postman & Swagger) for 5+ web and mobile applications including the SaaS platform Techbazaar, consistently achieving high-quality releases with minimal defect leakage.
- Built and maintained automated regression test suites using Playwright (JavaScript/TypeScript), covering 40% of stable features and reducing regression execution time by ~60%.
- Developed and maintained 200+ test cases in TestRail and comprehensive bug reports in JIRA, improving team transparency and traceability.
- Collaborated cross-functionally with Development, Product, and Design teams to establish test plans, acceptance criteria, and sprint-level quality gates.
- Designed end-to-end testing strategies covering UI, functionality, regression, and edge cases for SaaS products including Techbazaar and Trailer Central.
- Produced complete test documentation — test plans, test cases, and execution reports — ensuring audit-ready quality records across project lifecycles.

KEY PROJECTS

Techbazaar — B2B SaaS E-commerce Platform

- Designed and owned the full QA strategy for a multi-vendor SaaS marketplace; performed UI, functional, regression, and API testing across 3 major product releases.
- Identified and reported 100+ bugs pre-launch; collaborated with devs to resolve critical payment and inventory flow defects before go-live.
- Built Playwright automation suite covering core buyer/seller journeys, reducing manual regression effort significantly.

TrailerCentral — Trailer Dealership Management Platform

- Executed system integration and UAT testing for a US-based dealership SaaS product, ensuring compatibility across inventory, CRM, and listing modules.
- Authored complete test plans and regression test cases in TestRail; coordinated directly with the product team on acceptance criteria definition.

TECHNICAL SKILLS

Test Automation: Playwright (JavaScript / TypeScript), Cypress

Testing Types: Functional, Non-Functional, Regression, System Integration, UAT, Load Testing, , Security Testing

API Testing: Postman, Swagger

Performance Testing: Gatling, Jmeter

CI/CD & DevOps: Jenkins, Docker, CI/CD Pipeline Integration

Test Management: TestRail, JIRA

Methodologies: Agile (Scrum), Test Planning & Execution

Version Control: Git

Database: SQL

CERTIFICATIONS & TRAINING

ISTQB Certified Tester (Foundation Level) — International Software Testing Qualifications

Board Quality Assurance Fundamentals — 10Pearls University

EDUCATION

Bachelor of Business and Information Technology (BBIT)

2018 – 2022

University of the Punjab, Lahore

PROFESSIONAL EVENTS & EXHIBITIONS

Expand North Star — Official Exhibitor

Showcased project to global tech innovators; facilitated strategic networking and international partnerships.

GITEX Global — Attendee

Engaged with industry-leading technologies and trends; enhanced market insights and built business relationships.
